STUART MILLER

Chief Executive Officer, Lennar Corporation,
and Vice Chair, University of Miami Board of Trustees

An innovative and renowned business leader whose family has had an indelible impact on the University of Miami, Stuart Miller, J.D. '82, is CEO and a director of Lennar Corporation (NYSE: LEN), one of the nation's largest homebuilders. Miller also serves as vice chair of the University of Miami Board of Trustees.

Lennar Corporation has always been a part of Stuart Miller's life; the firm was cofounded by his late father, Leonard, and growing up Stuart Miller worked there part time. Miller joined Lennar full time after receiving an undergraduate degree from Harvard University and a law degree from the University of Miami in 1982. He served in various capacities for the company's Homebuilding Division and former Investment and Commercial Properties Division. From 1991 through 1997, he was president of both divisions and the primary force behind their growth and success. He assumed his current role as CEO of Lennar in April 1997.

That same year, the corporation spun off its commercial real estate investment, financial, and management activities into LNR Property Corporation, which became separately listed on the New York Stock Exchange. Miller served as chairman of the board of LNR until its sale in 2005 for approximately \$4 billion.

With Miller at the helm, Lennar has expanded its leadership in the homebuilding industry while diversifying into all aspects of construction as well as financial services. He led the firm through a series of successful acquisitions and marketing advances, and spearheaded its creative corporate culture. Today the company builds homes in 18 states.

A member of the University Board of Trustees since 2002, Miller is chair of the *Momentum2* campaign at the Leonard M. Miller School of Medicine and is the standard-bearer of his family's outstanding tradition of generosity and commitment to the University. The Miller School assumed its name in 2004, when the Miller family gave the University \$100 million—the largest gift from a family in UM history—to name the school in memory of Leonard Miller, who was a UM lifetime trustee. The family's generosity is also reflected in the creation of the Sue and Leonard Miller Center for Contemporary Judaic Studies at the

University of Miami. Stuart Miller is a dedicated supporter of the School of Law and Hurricane Athletics, and his daughter, Lauren, is a University alumna.

Miller's other philanthropic endeavors include working with the Florida Council of 100 PASS (Partnership to Advance School Success) Program, which aims to enhance principal leadership skills and raise the grade level of under-performing schools; and the South Florida Annenberg Challenge, a regional initiative designed to improve student achievement and

career readiness. He served as a director of the Overtown Youth Center and the Alonzo Mourning Charities Inc.

Miller has guided Lennar toward active engagement with communities in which the firm operates through the Lennar Foundation. Lennar has a longstanding partnership with Habitat for Humanity and the Special Olympics, through which company associates help Special Olympians build new homes for people in need. Lennar has been a sponsor of the Academy of Residential Construction and the Bay Point School, educational programs that offer students a high school diploma, work experience, and certification to work in the construction industry.

Miller also serves on various professional and community boards and committees. He is past chairman of the Joint Center for Housing Studies Policy Advisory Board at Harvard University. In 2000 he joined the Board of Directors of Builder Homesite, Inc., a consortium of homebuilders nationwide who work together to develop leading-edge technology solutions for their industry.

For his prodigious business accomplishments, contributions to communities, and extraordinary impact on the University of Miami, we are honored to welcome Stuart Miller as today's commencement speaker.

The ceremonies of commencement immerse us in the rich tradition of academic honors and dress that reaches back to the early days of the world's oldest universities.

The University of Miami awards degrees in three basic divisions: the doctorate, master's, and baccalaureate, which can be traced to medieval times. The student receiving a "first degree in arts" was crowned with a garland of barberries, hence "baccalaureate" and "bachelor." The master's degree was a license to teach (*Licentia docendi*), so the "master" was an appropriate title. The doctor was even better qualified to teach, for this degree required advanced study, independent research, and defense of a "thesis." These standards still apply to the doctorate, except for those conferred *honoris causa* (as honorary degrees) for meritorious service in public or private endeavor.

Some degrees are awarded with special recognition. For those who have achieved appropriate standards in their work, the words *cum laude* (with praise), *magna cum laude* (with high praise), and *summa cum laude* (with highest praise) are used. Students who have met formal scholarly demands, including both specified courses and high overall grade averages, may graduate with "General Honors." These achievements are recorded on diplomas and in official transcripts.

From medieval practice, academic dress has three items: cap, gown, and hood. In reviving the use of these items for the United States, an

intercollegiate commission in 1895 drafted a code that most universities, including the University of Miami, follow.

For all degrees, the mortarboard is the traditional cap. The tassel may be gold for a doctor or may indicate the field of study.

The bachelor's gown is black with long, pointed, open sleeves. The master's gown is black with a long, closed sleeve hanging below the elbow. The doctor's gown is black and is distinguished by three bars of velvet on a full sleeve.

The academic hood is the identifying symbol of the degree. Its length indicates which degree it represents: three feet for the baccalaureate, three-and-a-half for the master's, and four for the doctorate. The lining indicates the college or university that awarded the degree. University of Miami hoods are lined in orange, green, and white. The color of the velvet band represents the academic discipline. The most frequently seen colors are white for arts, yellow for science, pink for music, sapphire blue for philosophy, purple for law, scarlet for divinity, green for medicine, light blue for education, drab for business, orange for engineering, blue violet for architecture, gray for general studies, and apricot for nursing.

President Donna E. Shalala wears an orange robe with black velvet bars and green piping—the green and orange reflecting the University of Miami's school colors. Her hood is lined in a different shade of orange, indicating that she received her doctoral degree from Syracuse University.

IN THE STEPS OF CHAMPIONS

Desmond Child has been one of the most successful, versatile songwriters in the music business for more than two decades. This Grammy Award-winning singer and composer first enjoyed success as an artist (with his group Desmond Child & Rouge), then went on to co-write numerous hits for Kiss, Bon Jovi, Aerosmith, Joan Jett, Michael Bolton, Cher, and Ricky Martin. Over the course of his career, Child's

creative talent has resulted in more than three dozen Top 40 hits.

In fall 2004, Child gave the song "In the Steps of Champions" to the University of Miami. Co-written and produced by Child and Andreas Carlsson, the song represents the extraordinary achievements of the University, both on and off the playing field, and captures the spirit of what it means to be a Miami Hurricane.

INTRO

In the Steps of Champions
 In the Steps of Champions
 We will walk, tall and proud
 To the place where the story begins

In the Steps of Champions
 In the Steps of Champions
 We will reach the top of the sky
 Where the glory road ends
 And united we stand
 We're the U of M.

VERSE 1

I feel adrenaline rushing
 Like fuel through my veins
 I'm set on all systems go
 And it's not just a game

Cause I've worked day and night
 All my life for this one shining hour
 Got my eyes on the target
 I won't stop till I hit the goal.

CHORUS

In the Steps of Champions
 We're gonna fight
 Follow the light to the end

In the Steps of Champions
 This is our time
 We will be heroes again

In the Steps of Champions
 We're gonna fight
 Follow the light to the end

In the Steps of Champions
 This is our time
 We will be heroes again
 We're the U of M.

"In the Steps of Champions" is written by Desmond Child and sung by students from the Frost School of Music.

THE PRESIDENT'S MEDAL

Established by President Donna E. Shalala in 2003, the University of Miami President's Medal honors individuals for their outstanding leadership and distinguished accomplishments—in their fields of expertise as well as for their contributions to society. Past recipients include actor Michael J. Fox, for his commitment to raising awareness and research funding for Parkinson's disease; Billy Cypress, chairman of

the Miccosukee Tribe of Indians of Florida, for his efforts to preserve and share the rich heritage of the Native American community; as well as many University leaders for their longstanding service to the University of Miami community.

The President's Medal is embossed with the Great Seal of the University of Miami.

THE GREAT SEAL OF THE UNIVERSITY OF MIAMI

The Great Seal of the University of Miami symbolizes exceptional scholarship, a limitless quest for knowledge, and an abiding commitment to service shared by University faculty, staff, and students. The Great Seal includes a stylized sun and palm tree, as well as a shield with the traditional symbols of education—a key, a book, and a torch. The key signifies the unlocking, discovery, or re-evaluation of

learning and knowledge; the book holds the Latin words for discovery, preservation, and dissemination of knowledge; and the torch symbolizes the spread and dissemination of learning. Below the shield is the University's Latin motto, from the Book of Esdras, *Magna Est Veritas: Great Is Truth.*

THE MACE

The academic mace, an enduring symbol of institutional authority and prestige, is a vestige from prehistoric times. First used as a battle weapon, the mace evolved into a ceremonial staff carried in processions of royalty, magistrates, and church or university officials.

The University of Miami's current mace dates back to 1986, sculpted by UM professor of art William Ward. He chose a contemporary design, one that reflects the University's timelessness and perpetual growth from a young institution to one of national prominence. The clean lines and polished silver surface are elegant, dignified, and reflective of colors, textures, and forms in the ever-changing environment. Ward indicated that timelessness is further

represented by the mace's geometric design. Rather than employing symbols like books, candles, or globes, he noted that "these geometric shapes are not tied to fad or style but are an integral part of our world. There are obvious relationships to mathematics and the sciences, and as the mace is rotated, some of the planes at the top resemble letters. Its complexity is like the unfolding plot of a good story."

The University of Miami's current mace serves as a symbolic weapon to protect the ideals of truth, justice, and learning. During the commencement ceremony, it is carried at the head of the academic procession by the Grand Marshal, whose symbolic duty is the protection of the University, its people, and its processes.

THE MUSIC OF THE CEREMONY

UNIVERSITY OF MIAMI FANFARE

Great universities throughout the country begin their half-time performances with a special fanfare consisting of small portions of their school fight songs and alma mater. The fanfare signals the start of halftime festivities, exciting the crowd and encouraging loyal fans to remain in their seats during the band's performance. Following the Miami Hurricane's National Championship season in 2001-2002, David Lambert, D.M.A. '05, wrote a similar fanfare for the University

of Miami. "UM Fanfare" was premiered by the University of Miami Band of the Hour during the 2004 Miami Hurricane home football opener versus Florida State University. It has since been performed as a prelude to all Band of the Hour performances and has now become a part of the University of Miami's commencement to announce the opening of the ceremony.

PRESIDENT'S PROCESSIONAL FANFARE

Commencement ceremonies are rich in history, tradition, and ritual. One of the timeless traditions is the music. Over the years, the University of Miami has had a number of talented musicians and composers contribute to that history and tradition. In the spring of

2011, the "President's Processional Fanfare" was commissioned by the Office of Commencement as part of a composition competition. The winning composition, written by Logan Robert Anderson, premiered during the May 2011 Commencement exercises.

THE MUSIC OF HENRY FILLMORE

Henry Fillmore was an ardent supporter, friend, and benefactor of the University of Miami Band. After retiring to Miami, he quickly adopted the Band of the Hour at the University of Miami as his own. As a result, he was named "permanent guest conductor" of the band, and in appreciation of his dedication, the University awarded Fillmore an honorary doctorate in music. Fillmore's prominence as a band composer and his tireless dedication to the field of music remain his legacy. Benefiting most from his musical passion and artistry was the

University of Miami Band, to which he bequeathed most of his estate. The Henry Fillmore Band Hall, dedicated in 1959 along with the Fillmore Museum, is a symbol of that legacy.

The recessional music today is but a small part of his life's work. Each selection has a unique relationship to Miami and the University. *The Miami March* was dedicated to the community of Greater Miami, which enthusiastically supported Fillmore and his music.
